

The Top 4 Life-Altering Reasons Why Submitting Your Taxes Early is Imperative!

Stop what you're doing! This just in! News flash! News flash! We've just identified the top four critical reasons why you need to submit your taxes early! I've always been on the front lines of this crusade, encouraging my clients, lecturing my clients, even pleading with my clients to submit their taxes early, but aha! Finally, the proof is here!

And now, (drumroll please) here they are in descending order; the only four reasons you'll ever need to submit your taxes early:

- Number 4: **You would get your refund in time for a winter vacation!** What? Yes! Just think, you work hard and deserve a sun-and-sand vacation. I bet you'd come back feeling years younger. It's like ... the fountain of youth! All for you and just for submitting early!
- Number 3: **You get to pick the best time to meet with me!** Yes! Imagine the control! It's like you're boss-for-a-day! No more, "Sorry, Debbie's fully booked 'til Thursday of next month." You get to see me when it's best for *you*! If that's not worth the price of admission, I don't know what is!
- Number 2: **You get the very best out of your top-notch accounting professional before the chaos and stress of tax season!** Can you see it? No multitasking, no interruptions or distractions. Just laser focused Debbie in a meeting with you, for you, and about you. How cool is that?!
- Number 1: And the number one reason why it is imperative that you submit your taxes early: **Free stuff!!** That's right, boys and girls! If you submit your completed taxes with no missing information by March 20th, I will enter your name in a draw for the grand prize: Dinner for two at Urban Dish! "Woohoo!" "Awesome!" Take your spouse and make it a second honeymoon, or your estranged relative and make it a (very) small but important family reunion, or maybe even a favorite family pet. Better yet, take your dynamic, engaging, and often overworked accounting professional! The options are endless and all because you submitted your taxes early!

An opportunity like this only comes around so often, so grab your files and your calculator and get those taxes in!

Done yet? It's ok; I'll wait ...
